

Konstantin Larin, Software Engineer

Kazan, Russia | konstantin@larin.dev | [LinkedIn](#)

SUMMARY

Senior Software Engineer with 8+ years of experience, developing web applications across frontend, backend, and infrastructure – from architecture to deployment and ongoing maintenance. Experience spans small business platforms to complex internal systems, with a focus on usability, reliability, and clean architecture. Former WorldSkills Champion, Expert, and National Team coach.

CORE TECH STACK

Frontend: TypeScript, JavaScript, Vue, Nuxt, React, Inertia, Tailwind, PrimeVue, Quasar, Vite, HTML, CSS
Backend: PHP, Laravel, Node.js, RESTful APIs, OAuth, JWT
DevOps: Docker, Nginx, Linux, GitHub Actions, VPS setup, CI/CD
DB: MySQL, PostgreSQL, MongoDB, SQL
Other: Keycloak, ESLint, Cypress, Jest, PEST, Feature-Sliced Design, WordPress

EXPERIENCE

Jan 2022 – Sep 2025

Software Engineer, RWT (self-employed)

Remote

Tech Stack: TypeScript, Vue, Laravel, Nuxt, Quasar, Node.js, Docker, MySQL, Mongo

- Built and launched 5+ platforms (training center, booking, job placement, workflow tools).
- Set up infrastructure with Docker & CI/CD, reducing release cycles and improving reliability.
- Digitized manual processes into scalable web apps, cutting operational overhead.

Jan 2023 – Dec 2024

Senior Frontend Developer, InPDP (self-employed)

Remote

Tech Stack: Vue, Quasar Framework, Konva, FSD, Keycloak, Github Actions

- Built event management platform from scratch with unified portals for admins and participants.
- Implemented multi-role access system with context-specific permissions.
- Built dynamic access control and document template engine, improving flexibility for admins.
- Applied Feature-Sliced Design, boosting scalability and maintainability.
- Integrated Keycloak authentication and CI/CD pipelines (GitHub Actions).

Oct 2018 – Oct 2022

Trainer & Expert, WorldSkills Russia

Nationwide, Russia

Tech Stack: JavaScript, Vue, PHP, Laravel, Yii2, REST API, Git

- Trained Russian national team for WorldSkills & EuroSkills in modern web technologies.
- Served as Chief Expert and Judge, designing technical test projects, APIs and assessment systems.
- Delivered training for 400+ teachers and students, contributed to national-level demonstration exams.

Oct 2016 – Oct 2018

National Team Competitor, WorldSkills Russia

Kazan

Tech Stack: JavaScript, Vue, PHP, Yii2, HTML, CSS, WordPress, Git

- Represented Russia at WorldSkills & EuroSkills in Web Technologies.
- Mastered full-stack development: UI/UX, responsive layouts, frontend, backend.
- Built strong skills in debugging, version control, and high-pressure problem solving.

Feb 2017 – Present

Software Engineer, Freelance (self-employed)

Remote

Tech Stack: TypeScript, JavaScript, PHP, Vue, Laravel, Node.js

- Delivered end-to-end web solutions (frontend, backend, architecture) for clients.
- Collaborated directly with CEOs to define features and implement business-driven solutions.

Oct 2015 – Dec 2016

Web Developer

Chelyabinsk

Tech Stack: HTML, CSS, JavaScript

- Built responsive, pixel-perfect frontends with HTML/CSS and enhanced usability with JS animations.

EDUCATION

Nov 2019 – Apr 2024	Bachelor's degree, Chelyabinsk State University Development of software and information systems	Chelyabinsk
Oct 2012 – Jun 2016	Post-secondary vocational education, South Ural State Technical College Programming in computer systems	Chelyabinsk

AWARDS & RECOGNITION

- World Champion (Gold Medal & Best of Nation) – WorldSkills Competition 2017 (Web design and development), Abu Dhabi
- European Champion (Gold Medal) – EuroSkills 2018 (Web Technologies), Budapest
- Presidential Certificate of Honour of the Russian Federation
- Letter of Gratitude from the President of the Russian Federation
